Differentiators

- Subject Matter Experts (SMEs) for legacy data systems transitioning to the Air Force Enterprise Combat Support System (ECSS).
- SMEs in Historical Accounting; Data Mining, Graphic Extraction and Product Lifecycle Management for military applications; and Record Conservation and Preservation.
- GSA Financial and Business Solutions (FABS) schedule holder, SIN 520 13, Complementary Financial Management Services.
- Successful graduate of the Small Business Administration's 8(a) Business Development Program.

Past Performance

(Subcontractor to) Northrop Grumman Technical Services (NGTS)

- **Full text search capabilities, converting product data from legacy formats** to electronic formats, enabling **full text search** capabilities for the 584 Combat Sustainment Squadron for Robins Air Force Base. Services include:
 - Conversion of engineering drawing images into a format that enables enterprise-level full text search of any text content on the drawing images.
 - Management of Full Text Search conversion of 10 million documents for **JEDMICS** (Joint Engineering Data Management Information and Control Center).
- **Technical data hardware and software infrastructure** to aid in managing technical data activities/products for the WR-ALC Technical Data Systems and Data Management Support subcontract with NGTS to support the 584 CBSS/GBHAC Technical Data Branch. Our main focuses are:
 - Technical and functional support to assist the government in development and execution of digital data support, transformation strategies and processes.
 - Support necessary to facilitation of transition of WR-ALC technical data systems functionality and data to **Air Force enterprise-level systems** currently in various stages of development and/or implementation.
